

On The Go

with the Early Intervention Program

June 2009

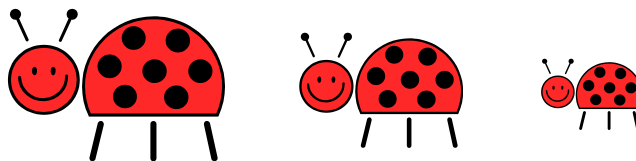

Summer's finally here...

...and the Early Intervention Program wants to thank all the families that have participated over the program year!

We are winding down for the summer months, but will be ready to roll come September. Lyn (ext. 224) or Krista (ext. 222) will be checking messages through July and August to address any questions or concerns you may have, you can reach them at 780-640-9401.

Good luck to the families who are moving on to other programs, and "See you soon!" to everyone else!

or call 780-980 – 7125

Fort Saskatchewan

www.fortsask.ca (click on “*Things to do*”)

or call 780-992 – 6150

Come try our Sensory Room!

Our Sensory Room is a multi-sensory environment designed to stimulate and entertain the senses. Children especially need time for play, relaxation, and enjoyment in a pleasurable environment. The goal of our Sensory Room is to provide children with an inclusive and developmentally appropriate environment for those who have sensory and learning disabilities.

A Sensory Room is a magical place that users and their companions can explore, absorb and control what happens within their environment. Companions are adults who gently facilitate the sensory experience. Our Sensory Room helps to provide a full range of sensory stimulation and enjoyable experiences in an atmosphere of trust and relaxation. In a safe and comfortable environment the primary senses are entertained and stimulated through self-selected sensations of wonderful combinations of soft music, enchanting lights, gentle vibrations, tactile sensations and enticing aromas. The enjoyment of the room is independent of the individual's cognitive or physical disabilities.

If you are interested in booking a visit to the Sensory Room at the Children and Youth Community Centre, call your Early Intervention Consultant at 780-640-9401.
